A little about me:

As an entry-level or junior developer, I am a highly motivated and hardworking individual with a strong passion for learning. I pay meticulous attention to detail to ensure accurate results and can effectively multitask to complete tasks to a high standard. I thrive in fast-paced, high-pressure environments and work well with team members and management. My passion lies in creating intuitive, engaging, and user-friendly websites that meet audience needs. I excel in problem-solving and have a strong ability to diagnose issues. I am adaptable, proficient at multitasking, and consistently meet deadlines.

Summary:

Highly motivated and hardworking entry-level/junior developer with a passion for learning and attention to detail. Skilled in multitasking and working under pressure. Collaborative team player with a focus on creating user-friendly websites. Strong problem-solving and diagnostic abilities. Adaptable and deadline-driven.

PERSONAL INTERESTS

Traveling – I love to travel and have had the opportunity to travel to multiple countries which I feel has given me a lot of real-world experience.

Gaming – I have enjoyed video games and board games ever since I was a child, gaming is how I connect with friends and family, I believe that gaming has given me many skills that I use in my everyday life such as problem solving, teamwork and the ability to think fast on my feet.

Investing – I have recently enjoyed learning about the stock and crypto markets, this has sparked an interest in current affairs and how they affect our economy.

Designing – I love to design mock websites and applications and learn new skills on YouTube.
